LEARNER LOG-IN INSTRUCTIONS

ATIS Help Desk Toll Free: 1-800-275-2872 Hours: 24/7

System requirements to use the Army Learning Management System (ALMS) include web browser (Internet Explorer (IE) 9 or 11), Non-classified Internet Protocol (IP) Router Network (NIPRNet) or internet connection, and an AKO account. The following are the minimum required browser settings that will allow you to view the majority of courseware on the ALMS:

a. JavaScript Status = Enabled
b. Operating System = Windows 7, 8/8.1, or 10
c. Internet Browser = IE9 or IE11
d. Flash Player = 11,5+

e. Pop-Up Blocker = Not Blocked
f. Cookies Enabled = Yes
g. Screen Resolution = 1024 x 768+
h. Color Depth = 24 Bit

In order to use the ALMS, you must disable the pop-up blocker in the internet browser Options tab.

System performance will vary depending on quality and speed of network connection. Most courseware must have the Active X controls enabled in Internet Explorer.

Note: Courses in the ALMS should include a Letter of Instruction (LOI) which may list specific recommendations for an optimized training experience. Depending on the browser, you may need to enable or disable Compatibility Mode.

Please note that enabling Compatibility Mode in IE11 requires a series of steps:

b. In the Internet Explorer toolbar at the top of the screen, select Tools.
c. Select Compatibility View settings.

Note: If the toolbar is not visible, right-click in the space at the top of the browser window and select Menu bar.

---

1 Internet Explorer 11 (IE11) reflects the browser type and version that is included in the Army Golden Master (AGM) [AGM version 11.1.2] approved software for use on Army-owned personal computer workstations. Users may employ other browser types (e.g. Chrome, Firefox, etc.) to execute ALMS-hosted courseware, but this courseware was not tested to run using these browsers and technical support for problems in execution will be limited.
d. The URL base "army.mil" should appear in the text field at the top of the Compatibility View Settings window under Add this website.

e. Select Add.

f. The URL will now appear in the second text field, Websites you've added to Compatibility View.

g. Select Close.

h. The page will refresh. You are now operating in Compatibility Mode.

Logging in to the ALMS

Step: 1
Making IE Browser Setting Changes (applies to most IE browser versions)

a. In Internet Explorer, click Tools, then select Internet Options. The Internet Options window is shown in Figure 1 below.

b. Select the Security tab and set the Security level for this zone to Medium.

Note: Some settings may not be available to you. Please consult your System Administrator for assistance, if applicable.
Figure 1: Internet Options – Security Tab
c. Select the **Privacy** tab and under *Pop-up Blocker*, make sure the box is unchecked and click **Apply**. This tab is shown in Figure 2.

**Figure 2: Internet Options – Privacy Tab**

d. Also under the **Privacy** tab, click the **Advanced** button and leave the *First-party* and *Third-party* cookies set on *Accept* and check the box for **Always allow session cookies**. This dialogue window is shown in Figure 3. Now click **OK** for the **Advanced** window and then **OK** for the **Internet Options** window.
Step: 2

b. You will be prompted to authenticate via EAMS-A Single Sign-On, as shown in Figure 4. Click **OK** to the U.S. Government Information System pop-up message.

c. Enter your Username and Password and click the **Login** button, or click the **CAC/PKI Login** button and enter your PIN when prompted.
Step: 3

**Windows Security Alert Notification**

If you are accessing the ALMS from other than a Digital Training Facility (DTF), you may experience a Security Alert window. Click **yes** until it disappears.

Step: 4

Upon logging in, you will be directed to a brief ALMS tutorial to help get you started.

**Note:** The tutorial is a one-time mandatory requirement. After that initial viewing, you will be able to access the tutorial as a resource from a link on the ALMS horizontal tab bar.

Upon completion of the tutorial, you will arrive at the ALMS Learner View and will be able to find/register/complete training.
Please note that you cannot register for Army Training Resources and Requirements System/Civilian Human Resource Training Application System (ATRRS/CHRTAS) managed courses from the ALMS. For those courses, you must either request enrollment from your supporting unit training specialist (e.g. Distributed Leader Course enrollments), or you may self-enroll in ATRRS for courses where permissible. You may register for non-ATRRS-managed courses directly in the ALMS using the Search field link in the ALMS Learner View.
