Mobile Digital Training Facility

- Designed for US Army Reserve (USAR) Soldiers who need individual and collective training accessibility anytime, anywhere

- MDTF will provide access to mandatory and command-directed distributed learning and to Professional Military Education

- The MDTF can be moved to when and where training is needed - no more waiting in line in to use the few Pcs available at the USAR Center

- Unlike traditional methods of training that are costly and require time away from family and the unit, the MDTF brings the training to the Soldier at no cost to the unit

The MDTF Features:

- 10 notebook PCs designed to be connected to the unit's local wireless network

- Two ruggedized cases for 10 laptops and 1 Video Tele-Training suite (codec, camera, projector, microphone, speaker)

- 3 business day on-site repair or replace maintenance

- Help Desk call-in phone number will be provided to initiate a trouble ticket and dispatch a technician

- The MDTF is a Preplanned Product Improvement (P3I) of a Digital Training Facility

- The MDTF is fielded and sustained by the Army Training Information System (ATIS)

- To obtain an MDTF, submit a request to USARC G-3/5/7

- For more information email: usarmy.jble.peo-eis.mbx.pdm-atis@mail.mil
